

Economy

Methodology

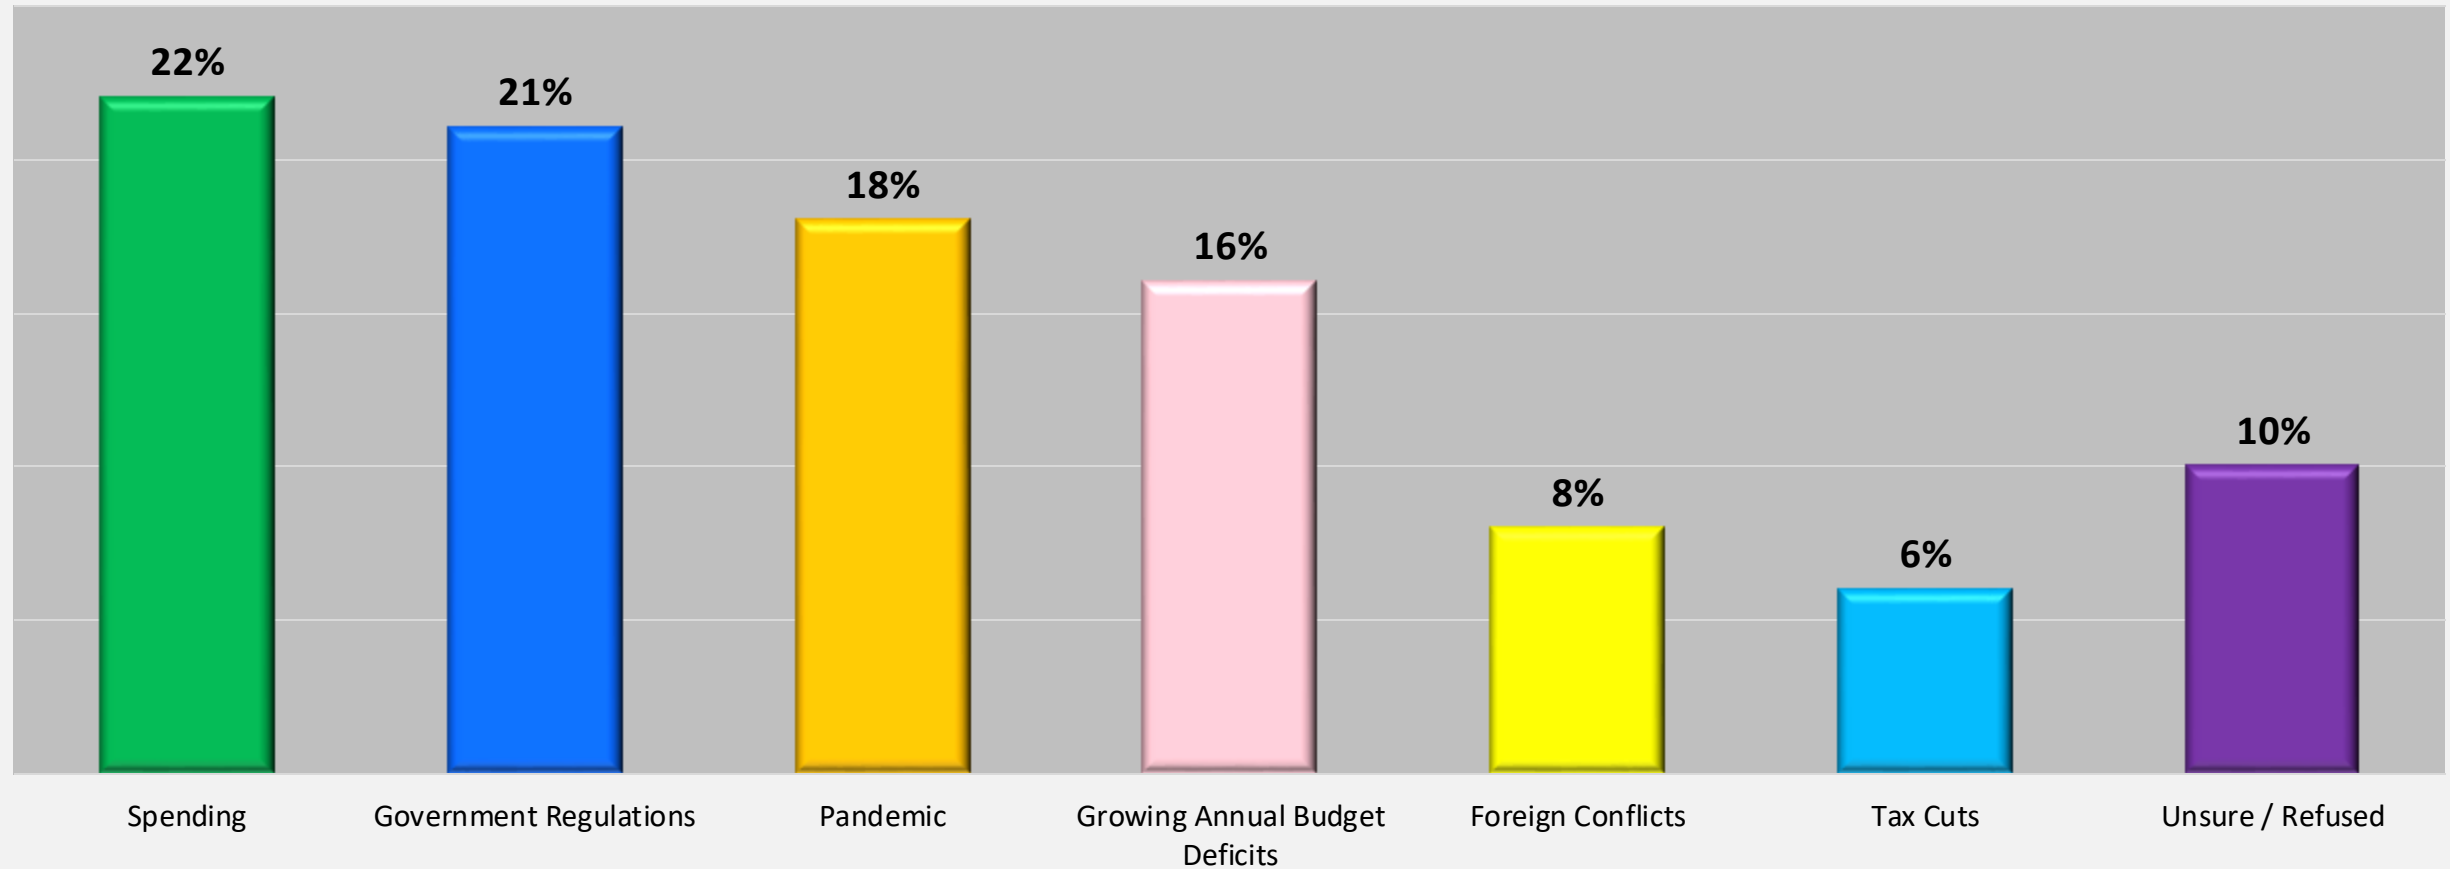

- Online survey among 2,800 likely voters in select states conducted July 31 – August 5, 2024. Respondents were selected randomly from opt-in panel participants. Sampling controls were used to ensure that a proportional and representative number of respondents were interviewed from such demographic groups as age, gender, race, and geographic region.
 - Gender breakdown: 48% men – 52% women
 - Party ID breakdown: 36% Republican, 25% Independent, 38% Democrat
 - States: Arizona (n400), Georgia (n400), Michigan (n400), Nevada (n400), North Carolina (n400), Pennsylvania (n400), Wisconsin (n400)
- $\pm 1.85\%$ overall margin of error at the 95% confidence interval for overall survey. M.O.E.s for subgroups are larger.
 - $\pm 4.9\%$ margin of error at the 95% confidence interval for each state.

What about the state of the economy has been the most challenging for you and your family?
